# WELCOME

Thank you for joining us at the Bladder & Bowel UK Symposium, Spring 2023, here in Bolton.

It is always a joy to bring our colleagues together, to make the most of opportunities, to connect and learn. We know that many colleagues travel a significant distance to join us, and we are delighted to see you here.

Welcome to all of our delegates, whether you are attending a Bladder & Bowel UK Symposium for the first-time, or are returning.

We have a fabulous range of speakers presenting today, across an exciting programme of Adult and Paediatric content. We are very grateful to each speaker for sharing their expertise, and we look forward to hearing what they have to say. The full programme can be found from **page 6**.

Our continence exhibition features the latest innovations from our exhibitors, and I am sure delegates will make the most of learning about the newest developments. You can find all of our exhibitors on **page 4**.

In 2022 we awarded the inaugural Bladder & Bowel UK Product Innovation and Clinical Excellence awards. TENA won the Product Innovation Award from six qualifying entries for their TENA SmartCare Change Indicator and TENA SmartCare Family Care Giver App, with the judging completed by a mixed panel of clinicians and Bladder & Bowel UK service users. Heywood, Middleton and Rochdale's Community Bladder and Bowel Service won the Clinical Excellence Award for the Right Pad Right Person Project, which was judged by June Rogers MBE, Doreen McClurg and Karen Logan. For more information about the winners, and details of how to apply for the 2023 awards, on **page 12**.

Finally, we extend our thanks to our sponsors for facilitating this peer-learning event. Thank you to Amcare, Coloplast, Convatec and MacGregor for their support of this Symposium and services of Bladder & Bowel UK.

We hope you enjoy the day.

*Karen Irwin*

*Specialist Nurse and Service Manager  
Bladder & Bowel UK*

# Bladder & Bowel UK Awards

---

Bladder & Bowel UK have presented their first-ever Product Innovation and Clinical Excellence awards to winners who are excelling in the field of bladder and bowel health care.

Congratulations to all who applied.

## THE BLADDER & BOWEL CLINICAL EXCELLENCE AWARD

**Heywood, Middleton and Rochdale's Community Bladder and Bowel Service** won the Bladder & Bowel UK Clinical Excellence Award for the Right Pad Right Person Project which uses specialist continence assessments, training and the prescription of continence pads to reduce poor incontinence care, incorrect usage of containment products and shortages of pads in residential and nursing homes, as well as the incidence of Incontinence Associated Dermatitis (IAD)/moisture lesions due to incorrect usage.

Judging was carried out by June Rogers MBE, Doreen McClurg and Karen Logan. During evaluation the service scored highly for the leadership shown and the evaluation that was carried out as part of the project.

2022 Winner

Bladder & Bowel UK  
Clinical Excellence Award

Heywood, Middleton  
and Rochdale  
Community Bladder  
and Bowel Service

## THE BLADDER & BOWEL UK PRODUCT INNOVATION AWARD

**TENA** won the Bladder & Bowel UK Product Innovation Award for their TENA SmartCare Change Indicator and TENA SmartCare Family Care Giver App, which sends notifications via smartphone when an absorbent continence product needs changing, without the need for intrusive checking.

Judges' comments included that it is "an innovative app that not only inform carers/ family members of the state of their loved ones continence pad but also allows the carer to gain support from other carers, health care professionals and have the ability to order further supplies," and that they are "very impressed with the level of patient/carers input in the design, development and trialing of this product."

The judging was completed by a mixed panel of clinicians and Bladder & Bowel UK service users.

# Bladder & Bowel UK Awards 2023

---

**THE 2023 BLADDER & BOWEL UK AWARDS 2023 WILL BE OPENING SOON**

Details will be shared across our newsletters and social media channels.

Join  
us next  
Autumn!

## Gain CPD hours

Evidence of attendance and certification will be provided in order to support CPD for all healthcare professionals as well as participatory hours for NMC revalidation.

Plus meet fellow professionals, learn about the latest innovations in our company exhibition and enhance the care of your patients.
