

An **unmissable** fixture in the continence calendar.

North West
Professional Symposium

Etihad Stadium
Manchester
4th March 2027

In 2027, we'll have more exhibition space and more delegate space

On 4th March 2027, the UK's leading continence experts will address some of the most critical discussions in bladder and bowel care.

The North West Symposium will feature a dedicated educational room for adults, expanding our exhibition space and allowing us to accommodate more delegates.

Thanks to convenient transportation networks and excellent hospitality, the North West Symposium is poised to attract delegates, speakers, and brands from across the UK, creating new and enhanced opportunities for commercial partnerships.

Your support enables Bladder & Bowel UK to keep delegate ticket prices affordable whilst maximising our marketing opportunities and utilising the prime exhibition space exclusively for our sponsors.
